PROJECT

CRYPTX – Smart Crypto Trading App UI/UX Design

05/2025 - 06/2025

CRYPTX is a futuristic and user-first crypto trading platform concept, designed to simplify digital asset management for both beginners and experienced traders. This UI/UX case study showcases a minimal yet powerful interface, real-time data visualizations, and a social layer that allows users to connect directly with top traders— something most platforms overlook.
